System

THE NEW GENERATION WORKSPACE

A new generation of up to fit the sp

Gain more space!

> A modular, upgradeable workshop to fit your available space:

- > Thanks to the wide range of storage units, you can order the level of services you need at a price which suits you.
- > The modular components fit side-by-side, on top of each other and will angle to meet your requirements.
- > You can add to your equipment in line with changes in organisation and/or working methods and spread out the cost over time.

> An organised workshop:

- > Thanks to the multiplicity of possible combinations, you can create a made-to-measure arrangement which matches the various activities for the area in question: work stations, storage and stocks.
- > Your more practical and better organised workshop will become more efficient.

Walls no longer needed!

- > Thanks to its exclusive **self-supporting structure**, the units are fitted independently of walls.
- > No more problems with walls which aren't straight, or pipes or cables running to the floor! Without these restrictions you can install your units wherever you like.

gradeable workspace ace available to you!

Modular

Upgradeable

Innovative

Adaptable

Choose comfort and ergonomic design

> Our objective:

to provide you with an optimised, functional and comfortable space, enabling you to obtain better results for minimum effort.

> The solution:

- A more comfortable working position thanks to units which are taller than standard units.
- This is in response to the increase in the average height of individuals.
- It's also a means of optimising storage space: the workshop tool trolley finally finds a place under the work surface!

Make everyday activities a pleasure

- > The workshop is a work-space but also a living space. When you choose Jetline System, you choose a completely safe workspace in a harmonious, pleasant and functional environment.

Create your space using the 'configurator'

- > You are completely free to design your very own workshop on-line at the [facom.com](http://www.facom.com) website.

www.facom.com

INNOVATION 2008
FACOM®

A universal product range

> JETLINE system is compatible with the JETXL tool cabinet range of tool storage accessories.

FACOM Quality

> Acknowledged manufacturing quality meeting the most exacting users' requirements.
> 5 year guarantee.

Easy to assemble

> The units are designed to be "ready to install" and are fully factory assembled.
> No need for any special skills, assembly is quick and easy.

Steel panel-work

> All units are made from Epoxy painted steel panels (thickness 12/10ths).

Color scheme

> Framework ELIAN grey
> Doors red 3020

Drawers

> The slides open 100%.
> They have been tested over 50000 open/close cycles, that is, for 10 years use.

Key operated locks

> All units have a key-operated lock and are supplied with 2 keys including 1 articulated key.

Doors

> The doors are tested over 10000 open/close cycles.

■ FULL DOOR CORNER

Ref: MBAPP Barcode: 3 148518 187268

- No more lost space with this unit, ideal for corners.
- An opening of 110°. The doors have been tested over 10000 open/close cycles.
- 1 Epoxy painted shelf with adjustable height, capable of supporting a load of 50 kg.
- Fitted with a set of wooden panels made of multi-ply beech, treated with linseed oil, 40 mm thickness.

Overall dimensions (including feet 168.7mm):

L	D	H
819 x 819 mm	648 mm	985 mm

- Weight: 62 kg

■ SINGLE FULL DOORS

Ref: MBSPP Barcode: 3 148518 185318

- An opening of 110°. The doors have been tested over 10000 open/close cycles.
- 1 Epoxy painted shelf with adjustable height. Capable of supporting a load of 50 kg.

Overall dimensions (including feet 168.7mm):

L	D	H
721.4 mm	507.4 mm	985 mm

- Weight: 58.5 kg

■ DOUBLE FULL DOORS

Ref: MBDPP Barcode: 3 148518 189118

- The double unit can be used for storing tools and/or items which are too long and bulky for standard units.
- With minimal door volumes, the sliding opening is perfect for small spaces.
- 2 metal panel sliding doors.
- 1 Epoxy painted shelf with adjustable height, capable of supporting a 75 kg load.

Overall dimensions (including feet 168.7mm):

L	D	H
1448.8 mm	507.4 mm	985 mm

- Weight: 91 kg

■ SINGLE GLAZED DOORS

Ref: MBSPV Barcode: 3 148518 185400

- Transparent doors allow you to quickly check contents and cleanliness.
- 2 transparent swing doors made of plexiglass thickness 3 mm mounted on invisible wire hinges providing opening to 110°.
- The doors have been tested over 10000 open/close cycles.
- 1 Epoxy painted shelf of adjustable height, capable of supporting a 50 kg load.

Overall dimensions (including feet 168.7mm):

L	D	H
721.4 mm	507.4 mm	985 mm

- Weight: 57 kg

GLAZED DOUBLE DOOR

Ref: MBDPV Barcode: 3 148518 189293

- The double unit can be used for storing tools and/or items which are too long and bulky for standard units.
- With minimal door volumes, the sliding opening is perfect for small spaces.
- Transparent doors allow you to check immediately on equipment, storage and cleanliness.
- 2 sliding transparent doors in plexiglass thickness 3 mm.
- 1 Epoxy painted shelf with adjustable height, capable of supporting a load of 75 kg.

Overall dimensions (including feet 168.7mm):

L	D	H
1448.8 mm	507.4 mm	985 mm

- Weight: 88 kg

6 DRAWERS

Ref: MBS6T Barcode: 3 148518 185585

- Drawer compositions: 6 drawers
4 drawers height 60 mm
1 drawer height 130 mm
1 drawer height 270 mm
- Load per drawer: 50 kg.
- Useable dimensions of the drawers: L569 x D421 x H60 mm.
- Drawers equipped with selective opening system.
- Fully opening drawers.
- Centralised locking, articulated key lock.
- Drawer fronts made of composite materials acting as effective bumpers.

Overall dimensions (including feet 168.7mm):

L	D	H
721.4 mm	507.4 mm	985 mm

- Weight: 79 kg

7 DRAWERS

Ref: MBS7T Barcode: 3 148518 185660

- Drawer compositions: 7 drawers
5 drawers height 60 mm
1 drawer height 130 mm
1 drawer height 200 mm
- Load per drawer: 50 kg.
- Useable dimensions of the drawers: L569 x D421 x H60 mm.
- Drawers equipped with selective opening system.
- Fully opening drawers.
- Centralised locking, articulated key lock.
- Drawer fronts made of composite materials acting as effective bumpers.

Overall dimensions (including feet 168.7mm):

L	D	H
721.4 mm	507.4 mm	985 mm

- Weight: 82.5 kg

> TECHNICAL CHANNEL

- Used to hold and protect electrical cables making them discrete and protecting them from dust.
- Allows quick and easy assembly of top units thanks to pre-drilled holes provided for passage of assembly tubes.
- Avoiding tools falling.

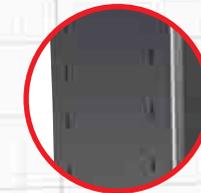

> FEET

The unit is fitted with jack-mounted feet for adjustment providing complete stability irrespective of the type of floor.

> PLINTHS

Made from painted sheet metal, these are simply screwed together and come apart easily if necessary for cleaning or for relocation of the unit.

> SIDE PERFORATIONS

Sides of the unit are ready drilled and JETXL accessories may be added (see range of accessories in the F08 catalogue).

- All units are made of Epoxy painted sheet steel (thickness 12/10ths).
- All units with doors or drawers are closed using a key and are supplied with 2 keys, including one which is articulated.

- Framework colour ELIAN grey and red doors 3020
- Shelves are made of Epoxy painted sheet metal and are of adjustable height.

■ SINGLE FULL DOORS

Ref: MHSPP Barcode: 3 148518 189378

- 2 swing doors, mounted on invisible wire hinges opening to 110°. The doors have been tested over 10000 open/close cycles.
- 2 painted shelves. Epoxy adjustable height. Capable of supporting a load of 20 kg.
- Quickly and easily fitted to a base unit using a «KIT-TUBES» or «KIT-TUBESUP» fitting kit.

Overall dimensions:

L	D	H
719 mm	277.8 mm	810 mm

- Weight: 27.5 kg

■ SINGLE GLAZED DOORS

Ref: MHSPV Barcode: 3 148518 189453

- Transparent doors allow you to quickly check contents and cleanliness.
- These cabinets are ideally suited for application of the '5S' rule: SEIRI (clear away), SEITON (store), SEISO (clean), SEIKETSU (specify storage rules), SHITSUKE (ensure compliance).
- Transparent swing doors made of Plexiglass thickness 3 mm, opening to 110°. The doors are tested over 10000 open/close cycles.
- 2 Epoxy painted shelves with adjustable height. Capable of supporting a load of 20 kg.
- Quickly and easily fitted to a base unit using a «KIT-TUBES» or «KIT-TUBESUP» fitting kit.

Overall dimensions:

L	D	H
719 mm	277.8 mm	810 mm

- Weight: 26 kg

■ WALL CABINET, 1 DRAW

Ref: 2201PB Barcode: 3 148517 919730

- Compact and efficient, this cabinet allows multiple storage organisation options.
- Cabinet combining a vertical hooking part and a drawer part. **Vertical Hooking Part:** storage surface: 1 m². The back and sides of the cabinet and door linings are perforated for hanging tools using the CKS system. 180° opening of 2 swing doors for maximum visibility and accessibility. **Drawer Part:** 1 drawer equipped with ball-bearing slides, opening 100%. Useable dimensions of the drawer: 569 x 60 x 210 mm. Centralised locking of doors and of the drawer using lock with key.
- Quickly and easily fitted to a base unit using a «KIT-TUBES» or «KIT-TUBESUP» fitting kit.

Overall dimensions:

L	D	H
719 mm	277.8 mm	810 mm

- Weight: 31 kg

DOUBLE GLAZED DOORS

Ref: MHPV Barcode: 3 148518 189538

- The double unit can be used for storing tools and/or items which are too long and bulky for standard units.
- The vertical hooking panels offer visibility and direct access to tools.
- Transparent doors allow you to quickly check contents and cleanliness.
- 2 transparent plexiglass sliding doors thickness 3 mm.
- Equipped with a perforated panel (6 x 6 mm in 12 mm steps) for fixing tools using the CKS range of hooks (see the range in the F08 catalogue).
- Quickly and easily fitted to a base unit using a "KIT-TUBES" or "KIT-TUBESUP" fitting kit.

Overall dimensions:

L	D	H
1446.4 mm	277.8 mm	810 mm

- Weight: 31 kg

OPEN CORNER

Ref: MHA Barcode: 3 148518 189613

- Ideal complement to the base corner unit for optimised layout of normally unused space.
- 2 Epoxy painted shelves with adjustable height, capable of supporting a 20 kg load.
- Quickly and easily fitted to a base unit using a "KIT-TUBES" or "KIT-TUBESUP" fitting kit.

Overall dimensions:

L	D	H
815 x 815 mm	391.6 mm	810 mm

- Weight: 13.5 kg

OPEN TOP CORNER BOX

Ref: CHA Barcode: 3 148518 189880

- Open box for quick access.
- Ideal for storage of documents or of consumables.
- Ideal complement to the base corner unit for optimised layout of normally unused space.
- Admissible load 30 kg.
- Quickly and easily fitted to a base unit using a "KIT-TUBES" or "KIT-TUBESUP" fitting kit.

Overall dimensions:

L	D	H
815 x 815 mm	391.6 mm	405 mm

- Weight: 10 kg

- All units are made of Epoxy painted sheet steel (thickness 12/10ths).
- All units with doors or drawers are closed using a key and are supplied with 2 keys, including one which is articulated.

- Framework colour ELIAN grey and red doors 3020
- Shelves are made of Epoxy painted sheet metal and are of adjustable height.

OPEN SINGLE TOP BOX

Ref: CHS Barcode: 3 148518 186971

- Open box for quick access.
- Ideal for storage of documents or consumables
- Admissible load 30 kg.
- Quickly and easily fitted to a base unit using a "KIT-TUBES" or "KIT-TUBESUP" fitting kit.

Overall dimensions:

L	D	H
719 mm	277.8 mm	405 mm

- Weight: 8.5 kg

OPEN DOUBLE TOP BOX

Ref: CHD Barcode: 3 148518 187183

- Open box for quick access.
- Ideal for storage of documents or consumables
- Admissible load 50 kg.
- Quickly and easily fitted to a base unit using a "KIT-TUBES" or "KIT-TUBESUP" fitting kit.

Overall dimensions:

L	D	H
1446.4 mm	277.8 mm	405 mm

- Weight: 14 kg

SINGLE TOP BOX WITH DOOR

Ref: CHSPP Barcode: 3 148518 189965

- Ideal for storage of documents or consumables
- Lift-up sheet metal door equipped with a support strut tested over 10000 open/close cycles.
- Admissible load 30 kg.
- Quickly and easily fitted to a base unit using a "KIT-TUBES" or "KIT-TUBESUP" fitting kit.

Overall dimensions:

L	D	H
719 mm	277.8 mm	405 mm

- Weight: 13.5 kg

DOUBLE TOP BOX WITH DOOR

Ref: CHDPP Barcode: 3 148518 190084

- Ideal for storage of documents or consumables
- Lift-up sheet metal door equipped with a support strut tested over 10000 open/close cycles.
- Admissible load 50 kg.
- Closed using key.
- Quickly and easily fitted to a base unit using a "KIT-TUBES" or "KIT-TUBESUP" fitting kit.

Overall dimensions:

L	D	H
1446.4 mm	277.8 mm	405 mm

- Weight: 19 kg

Storage cabinets

1 FULL DOOR

Ref: A500PP Barcode: 3 148518 191128

- Low width for restricted spaces.
- For use as standard cabinet or as clothes locker.
- 1 swing door, mounted on invisible wire hinges opening to 110°. The doors have been tested over 10000 open/close cycles.
- 3 Epoxy painted shelves with adjustable height (100 mm steps). Capable of supporting a load of 35 kg.
- 1 wardrobe bar for use as clothes locker.
- Handle fully integrated in the door for comfortable and ergonomic opening.
- Closure using key, two points, top and bottom.

Overall dimensions (including feet 168.7mm):

L	D	H
500 mm	507,4 mm	1835 mm

- Weight: 70 kg

1 GLAZED DOOR

Ref: A500PV Barcode: 3 148518 191210

- Low width for restricted spaces.
- Transparent doors allow you to quickly check contents and cleanliness.
- These cabinets are ideally suited for application of the '5S' rule: SEIRI (clear away), SEITON (store), SEISO (clean), SEIKETSU (specify storage rules), SHITSUKE (ensure compliance).
- 1 transparent swing door made of Plexiglass thickness 3 mm, mounted on invisible wire hinges opening to 110°. The doors have been tested over 10000 open/close cycles.
- 3 Epoxy painted shelves with adjustable height (100 mm steps) capable of supporting a 35 kg load.
- Closure using key, two points, top and bottom.

Overall dimensions (including feet 168.7mm):

L	D	H
500 mm	507.4 mm	1835 mm

- Weight: 66.5 kg

2 FULL DOORS

Ref: A1000PP Barcode: 3 148518 186896

- An indispensable cabinet for organised and effective storage of all tools and consumables.
- Swing doors mounted on invisible wire hinges opening to 110°.
- In order to ensure that the cabinet is rigid and secure the doors are integrally lined with 12/10th sheet metal panels.
- The doors have been tested over 10000 open/close cycles that is, for 10 years use.
- 3 Epoxy painted shelves with adjustable height (100 mm steps). Capable of supporting a load of 75 kg.
- Handle fully integrated into the door for comfortable and ergonomic opening.
- Closure using key, two points, top and bottom.

Overall dimensions (including feet 168.7mm):

L	D	H
1000 mm	507.4 mm	1835 mm

- Weight: 102 kg

2 GLAZED DOORS

Ref: A1000PV Barcode: 3 148518 186544

- An indispensable cabinet for organised and effective storage of all tools and consumables.
- Transparent doors allow you to quickly check contents and cleanliness.
- Transparent swing doors made of Plexiglass thickness 3 mm, mounted on invisible wire hinges opening to 110°.
- In order to ensure that the cabinet is rigid and secure the doors are integrally lined with 12/10th metal panels.
- The doors have been tested over 10000 open/close cycles.
- 3 Epoxy painted shelves with adjustable height (100 mm steps). Capable of supporting a load of 75 kg.
- Closure using key, two points, top and bottom.

Overall dimensions (including feet 168.7mm):

L	D	H
1000 mm	507.4 mm	1835 mm

- Weight: 95 kg

- All units are made of Epoxy painted sheet steel (thickness 12/10ths).
- All units with doors or drawers are closed using a key and are supplied with 2 keys, including one which is articulated.

- Framework colour ELIAN grey and red doors 3020
- Shelves are made of Epoxy painted sheet metal and are of adjustable height.

- > Gain space: wall surfaces are transformed into storage surfaces.
- > Gain time: direct access to tools.

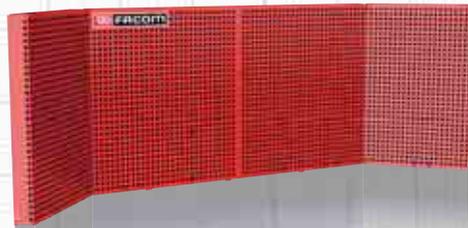

- Perforated panel: 6 x 6 mm in steps of 12 mm.
- Fixing of tools using the CKS range of hooks (see catalogue FOB).
- Can also hold shelves (perforations provided for shelf supports).
- Stacking of 2 half-panels possible.
- Fitting using "KIT-TUBES" mounting tubes (for later installation to a unit) or "KIT-TUBESUP" (for installation on a single work surface).
- Made of Epoxy painted sheet steel (thickness 12/10ths).
- Colour red 3020.

FITTING FITS

Ref: KIT-TUBES Barcode: 3 148518 185745
 Ref: KIT-TUBESUP Barcode: 3 148518 185820

Thanks to this tubular system the structure is self-supporting. Fitting is quick and simple:

1. Position the base units.
2. Fit the tubes and fix the service channel.
3. Consolidate the assembly by fixing your work surface.
4. Install the top units.

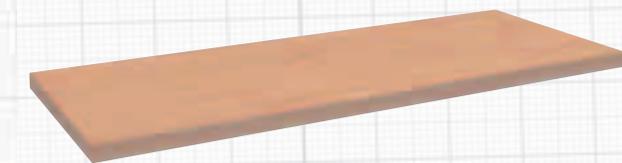

The tube dimensions ensure the stability and safety of the assembly.

The KIT-TUBES is used for fitting top units onto the base units. It is made up of 2 Epoxy painted metal tubes. Dimensions: Ø 30 mm. Length: 1188 mm.

The KIT-TUBESUP kit is used for fitting top units onto a single work surface. It is made up of: work surface and a multi-function service channel. Dimensions: Dia. 30 mm. Length: 841 mm.

Panels, cross beams, legs and accessories

WOOD WORKSURFACE

Ref: JLS-PB1 Barcode: 3 148518 190169
 Ref: JLS-PB2 Barcode: 3 148518 190329
 Ref: JLS-PB3 Barcode: 3 148518 190411

- Wooden panel made of multi-ply beech. Thickness 40 mm guaranteeing strength and long life. Linseed oil treatment for improved resistance to liquids and ease of maintenance.
- 3 different lengths, perfectly matching the dimensions of the base units.
- Quick and easy assembly thanks to pre-positioned metal inserts.
- Capable of supporting loads: 500 kg for JLS-PB1 and 1 tonne for JLS-PB2 and JLS-PB3.

Ref.	L	Depth plate only	Depth with channel*	Weight
JLS-PB1	727 mm	570 mm	635 mm	12 kg
JLS-PB2	1455 mm	570 mm	635 mm	24 kg
JLS-PB3	2182 mm	570 mm	635 mm	36 kg

*When you design a simple bench made up of a panel, feet and a rail, consider adding a service channel.
 KIT-GTECH Example: for a 1455 mm bench, you need 1 JLS-PB2 + 2 KIT-GTECH.

WOOD & STEEL WORKSURFACE

Ref: JLS-PBG1 Barcode: 3 148518 191395
 Ref: JLS-PBG2 Barcode: 3 148518 191470
 Ref: JLS-PBG3 Barcode: 3 148518 191555

- Panel made of multi-ply beech of thickness 40 mm covered with 12/10th galvanised steel for improved impact and heat resistance (edge also covered).

Ref.	L	Depth panel only	Depth with channel*	Weight
JLS-PBG1	727 mm	570 mm	635 mm	16.2 kg
JLS-PBG2	1455 mm	570 mm	635 mm	32.3 kg
JLS-PBG3	2182 mm	570 mm	635 mm	48.5 kg

*When you design a simple bench made up of a panel, feet and a rail, consider adding a service channel KIT-GTECH.
 Example: for a 1455 mm bench, you need 1 JLS-PB2 + 2 KIT-GTECH.

CROSS BEAM

Ref: JLS-TRAA2 Barcode: 3 148518 185158
 Ref: JLS-TRAA3 Barcode: 3 148518 185233

- Connecting and reinforcement rail for bench with 1455 mm (JLS-TRAA2) or 2182 mm (JLS-TRAA3) work surface.
- Made of Epoxy painted sheet steel (thickness 12/10ths).
- Colour grey rouge 3010.

Overall dimensions:

L	D	H
240 mm	40 mm	1053/1780 mm

- Weight: 4,3/7.5 kg

SINGLE LEG

Ref: JLS-PS Barcode: 3 148518 179935

- Foot made of Epoxy painted sheet steel (thickness 12/10ths).
- Equipped with feet with jack for adjustment giving complete stability, irrespective of the type of floor.
- Colour ELIAN grey.

Overall dimensions:

L	D	H
497 mm	100 mm	985 mm

- Weight: 14,5 kg

SERVICE CHANNEL

Ref: KIT-GTECH Barcode: 3 148518 191043

- The service channel is a multi-function channel:
 - Used to hold and protect electrical cables making them discrete and protecting them from dust.
 - Allows quick and easy fitting of top units thanks to the pre-drilled holes provided for passage of the mounting tubes.
- The KIT-GTECH kit is used in combination with work surfaces when you don't want top units (if you have chosen top units, you must use KIT-TUBES or KIT-TUBESUP).
- It is made of galvanised steel.
- To avoid any possibility of damage, the channel is equipped with rubber cable ways.
- The length of a channel corresponds to a module of 727 mm. For a 727 mm work surface, you need 1 KIT-GTECH. For a 1455 mm work surface, you therefore need 2 KIT-GTECH kits. For a 2182 mm work surface, you need 3 KIT-GTECH kits.
- Dimensions: L 727 x D 65 x h 70 mm

LIGHTING

Ref: JLS-LIGHT Barcode: 3 148518 190756

- Essential lighting for your comfort and precision work.
- The LIGHT assembly can be fitted: either directly under one of the top boxes (CHS, CHD etc.); or directly under a wooden shelf (EB1M, EB2M); or by being fixed onto a vertical hooking panel (PAV1, PAV2, PPAV1,...) using the supplied metal support.
- White light. Power: 13 W/230 V.
- ON/OFF button.
- Length of neon tube 515 mm (724.5 with the support).
- Weight: 1.4 kg.

WOODEN SHELF

Ref: EB1M Barcode: 3 148518 190831
 Ref: EB2M Barcode: 3 148518 190916

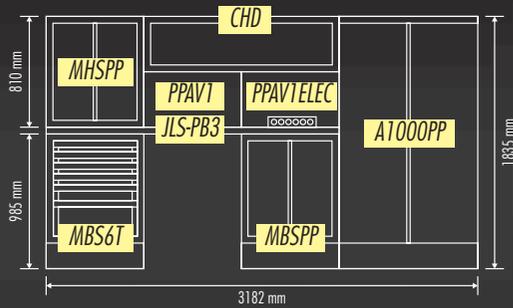

- Wooden shelf made of multi-ply beech. Thickness: 20 mm. Linseed oil treatment.
- Supplied with two supports for installation on vertical panels.
- For mounting between two units boxes must be drilled.
- Dimensions: 1 m (EB1M) or 2 m (EB2M).
- Weight: 3.9 kg (EB1M) or 8.3 kg (EB2M)
